## THE ELECTRIC VEHICLE RECHARGED BY THE SUN

ElettraCity is a small quadricycle that makes it easily manageable in traffic situations, but extremely comfortable inside.

ElettraCity is 100% electric, it can accommodate 2 passengers, has a max speed of 45km/h and is suitable for mileage in historic centers, perfect for Car Sharing and can be driven from 14 years.

The photovoltaic panel on the roof allows a maximum increase of 30% of the basic autonomy of the vehicle!

From **4.800,00 € + VAT** including incentives
